

innovation in **CO**mputing **RE**search Lab

iCORE is a TAMUCC multidisciplinary research group. With a core focus on computation, we are involved in robotics, coastal & atmospheric science, agriculture & more. All are invited to ***join us*** or ***attend our events***.

Fall 2023 Events

4:00 - 5:00 p.m.
NRC 2100 Suite

| | |
|------------------------------|---|
| October 6 Brian Colburn | <i>Optimizing Hyerparameters</i> Machine Learning Talk |
| October 20 Evan Krell | <i>Inkscape for Researchers</i> Software Tutorial |
| November 3 Tami King | <i>Unit Testing</i> Programming Tutorial |
| November 17 Miranda White | <i>Research Poster Design</i> Lecture |
| December 1 Hector Morero | <i>Probabilistic Modeling</i> Machine Learning Talk |
| December 8 Waylon Collins | <i>Meteorological Model Interpretation</i> Machine Learning Talk |

iCORE meetings are bi-weekly, starting Sept. 8.
Visit our website to view our calendar and learn more about us.

Meeting Format

- 3:30 - 4:00** iCORE member research updates
4:00 - 5:00 Scheduled iCORE event
